## Description

Bucharest is a collage city, a mix of architectures, identities and personalities, which form him and give him identity.

In such a way context, urban experience and living in the city center are constantly reinvented.

Virgiliu 21-23 responds to this challenge, in an elegant and extremely up-to-date manner.

Built in an area of the old capital, the project makes a concrete link between the inhabitants and city.

In Virgiliu 21-23, you will enjoy the experience of living in a project residential boutique, with a distinct, sustainable architecture with a strong feeling of Home. It may seem like a dream come true, but it is only an honest answer to what Bucharest can offer to those who are truly in love with the cityscape.
