Description

Bucharest is a collage city, a mix of architectures, identities
and personalities, which form him and give him identity.
In such a way context, urban experience and living in the city center are
constantly reinvented.
Virgiliu 21-23 responds to this challenge, in an elegant and extremely up-to-date manner.
Built in an area of the old capital, the project makes a concrete link between the inhabitants and city.

In Virgiliu 21-23 you will enjoy the experience of living in a project residential boutique,
with a distinct, sustainable architecture with a strong feeling of Home. It may seem like a dream come true,
but it is only an honest answer to what Bucharest can offer to those
who are truly in love with the cityscape.

This offer belongs to the real estate company Espaco. Offer Code ESP06306RB.
For details and viewings, please contact us: 0726119988.
